To Whom It May Concern,

The Communication Workers of America and Local 6401 whole heartedly supports the *911 First Responders Act*. This legislation is long overdue, and we are very pleased that the public safety telecommunicators will be receiving the recognition and support they deserve. The work they do saves lives and keeps our Police, Firefighters and EMTs safe. Their dedication to the communities they serve is unwavering, even in the face of the immense pressure and stress they endure daily. Classifying them as Emergency Responders will be an excellent way for Kansas to acknowledge their commitment and the essential role they play in the safety of the public. Thank you for your time and consideration in this matter.

Respectfully,

Charles Cordero, President
Communications Workers of America
