Subject: 911 First Responders Act

The Eudora Police Department would like to express our support of the 911 First Responders Act.

Most citizens would consider a first responder as someone designated or trained to respond to an emergency. Dispatchers do this on a day to day basis. They are individuals who in the early stages of an incident are just as responsible for the preservation of life as officers who respond to the scene.

I have the utmost respect for the role Dispatchers play in law enforcement and feel strongly that they are deserving of the same recognition as their fellow Dispatchers in other states have already received.

Respectfully,
